Office Memorandum • UNITED STATES GOVERNMENT

TO : Deputy Director (Plans)
 THRU : Assistant Director for Special Operations
 FROM : Chief, Communications Division

DATE: 12 June 1951

SUBJECT: Implementation of [] Project

1. A major communications facility [] is a pre-requisite to the successful continuation of current and proposed OSO/OPC operations

25X1C
 25X1A

[] The present communications base [] is inadequate and unsatisfactory, being located in a highly industrialized area. Project [] the expansion and relocation of the [] communications facility to the [] was established as a joint OSO/OPC enterprise under the authority implicit in the approved Overseas Communications Plan. Funds for this purpose are presently available. Responsibility for continuing logistic support and cover for this specific project was assigned [] on 29 April 1951.

2. Until a [] becomes effective, it is impossible to obtain formal agreements assuring long term rights for the property required for []. Therefore, should it eventually become necessary to relocate the facility, the major portion of the Agency [] investment in the [] buildings, utilities, and antenna installation probably could not be salvaged.

3. In view of the urgent need for this facility for current operations, it is considered necessary to take a calculated risk in this instance and proceed with the implementation of [] without delay, meanwhile continuing joint Agency [] efforts to have the project included in the [] bases. Your concurrence in this matter is desired.
